No items have been added yet! Related Collections. Image with alt text.The road to a long-lasting Mexican national team An unmatched passion for a sports game and a great work ethic are the ingredients needed for a successful career in football. Football is not a game where the strongest man prevails, but rather a game where the most persistent one wins. Like so many other football teams of Mexico, the Mexico national team has endured hard times in recent years. A failed qualification for the 2014 World Cup, a group stage exit at the 2015 Copa America and a disastrous performance at the 2018 World Cup - all of these result in an average FIFA rating of 506, the lowest ever for the country. The Mexico national team, however, will show its quality in a friendly game against Costa Rica this Wednesday in Mexico City. And if one were to ask most observers of the Mexican game
